GENERAL INFORMATION

RIGHT STATIONARY

DIMENSIONAL DOORS

Clad sliding patio doors may be specified as "dimensional", by adjusting the desired rough opening width or height in 1/8" increments from standard.

Clad sliding patio doors are available in single, twin, triple and quad panel doors. The standard size range includes sizes specifically designed for replacement of older patio door models in existing structures, as well as a full range of products for architectural consistency.

OPERATION

Clad sliding patio doors are available in a full range of operating and stationary styles. Single panel doors are only available as stationary (non-venting) styles. Two-panel doors are available with left or right operation. Three-panel doors are available with left and right operation and with center or end operators. Four-panel doors are available with two panels operating from the center. Configuration and handing is based on viewing the door from the exterior.

MULTIPLE ASSEMBLIES

Clad sliding patio doors are available in a wide variety of multiple panel configurations from the factory, all of which are assembled with continuous sills. Mulling of Clad sliding patio doors to like products in the field is not recommended. Instead, individual factory assembled units should be installed in contiguous rough openings, in order to provide adequate framing support to assure the best performance of the door systems.

ELEVATION NOTES

ELEVATION DRAWINGS UTILIZE A LIMITED NUMBER OF PROJECTED LINES TO PRODUCE A RUDIMENTARY DRAWING INTENDED TO BE USED IN A SMALL GRAPHICAL SCALE. ELEVATIONS ARE VIEWED PERPENDICULAR FROM THE EXTERIOR OF THE STRUCTURE. IF MORE DIMENSIONS ARE NEEDED, USE THE SECTION DRAWINGS FOR MORE COMPLETE DEPICTIONS.

GENERAL GLIDING DOOR NOTES

1. TRADITION PLUS CLAD SLIDING PATIO DOOR (TCSLD) UNITS ARE AVAILABLE AS OPERATING OR FIXED UNITS AND NARROW AND WIDE STILE.
2. OPERATING UNITS ARE AVAILABLE AS LEFT OR RIGHT HAND OPERATION.

LITE CUT INFORMATION

Clad sliding patio doors are available with removable grilles in 7/8", 1-1/8", and 1-3/8", and 2-1/8" widths, with grilles between the glass (GBG), or with Simulated Divided Lites. Standard lite cuts are rectangular.

LITE CUT OPTIONS

Special lite cut patterns can include a wide variety of straight line and radius patterns. The illustrations shown here represent just a few of the possibilities. Rectangular, horizontal, vertical and Prairie lite patterns are available in all standard size clad gliding patio doors. Uneven, diamond, radius and Gothic lite cuts are available, subject to approval. Approvals are based on the ability to fulfill the design requirement while maintaining the construction integrity of the finished product.

BAR ALIGNMENT

Alignment of divided lite muntin bars from one product to the next is often required by fine architectural design. Wood grilles, GBG's, and Simulated Divided Lites may be specified with muntin bars aligned.
